CAREER OBJECTIVE:

I am devoted and enthusiastic about MERN stack. Acquiring insight and knowledge into this spectrum is my main objective. I intend to make functional websites with adequate UI/UX.

SKILLS:

Expertise:

Html5, CSS3, Bootstrap, Tailwind, JavaScript, ES6, React.js, React-router-dom.

Comfortable:

React hook form, ReactQuery, DaisyUI.

Familiar:

Node.js, MongoDB, Redux

Tools:

Git, Github, Netlify, Chrome Dev Tools, VsCode, Heroku, Figma, Stripe.

PROJECTS:

EasySchedule | [Live Site](#) | [GitHub Client](#) | [GitHub Server](#) |

EasySchedule is your hub for scheduling meetings professionally and efficiently, eliminating the hassle of back-and-forth emails so you can get back to work.

- By using EasySchedule users can create events, and make schedules.
- Users can chat with the scheduled creator, and also create video meetings.
- With the messenger live chat option users can chat with the admin for any queries.
- Dashboard of admin and user are shown with different role.

Electronic Bazaar | [Live Site](#) | [GitHub Client](#) | [GitHub Server](#) |

This website is an online Inventory, where user can buy all electronic products from the warehouse to their destination.

- Users can see all added products on the My Items page.
- Users can add products, and delete a product.
- To update stock product user must login with Google or Register.
- In Manage Inventory all products are shown.

Speed Up Motors | [Live Site](#) | [GitHub Client](#) | [GitHub Server](#) |

SpeedUp Motors is about parts manufacturers. The parts manufacturers could manufacture motorbikes parts that are available.

- Users can place an order by watching the minimum and available quantity.

- Review after getting services which will be available on the home page.
- User must be logged in before placing any order.
- Admins can add new products, manage existing products and make other users admin.
- JWT is used for API security.
